

Course dates:
4th - 29th of
October

The German Science System

This online course introduces the institutions of the German science system and their roles in fostering innovation and scientific careers. Get your map of this complex research landscape!

The course is divided in four sections. Starting October 4th, one section will be made available each week. Participants can work through the pre-recorded lectures at their own pace. Time requirement is estimated at 1.5 to 2.5 hours per week. A certificate of participation will be available upon completion of the course. Participation is open to all scientists and free of charge.
